Subject: RE: Friday call?

Mr. Trulear,

Since I didn't receive anything last week, could you give a revised time frame for providing a response to

- 1) February 25 request for a statement of policy regarding under drains as point sources and
- 2) April 10 request for enforcement?

Thanks,

A call has not been rescheduled. However, as we discussed last Friday, we at EPA have been discussing this internally this week and are in the process of developing a plan of action with our enforcement staff. We plan to provide you with a written response to your April 10th correspondence before the end of next week.

Thanks,

Brian

Mr. Trulear,

You had indicated on the phone last Friday that you would try to reschedule last Friday's cancelled call for tomorrow.

Did this happen?
